

REMARKS

Applicants have amended the first full paragraph on page 94 of the Specification to correct a typographical error. Noting that this first full paragraph on page 94 refers to the compound 3-administered group, it is respectfully submitted that one of ordinary skill in the art would have known, as of the filing date of the above-identified application, that the group referred to in line 6 of this first full paragraph on page 94 is the compound "3"-administered group; and that, accordingly, the present amendments to the present Specification do not constitute new matter.

Applicants are amending the claims of the above-identified application to delete multiple dependency, including improper multiple dependency. In light thereof, Applicants are adding new claims 23-28 to the application. Claims 23-28 recite subject matter expressly set forth in claim 15 or 16, but are dependent on claims other than those upon which presently amended claim 15 (and, through amendment of claim 15, claim 16) is dependent.

Entry of the present amendment, prior to calculation of the filing fee; and, subsequent thereto, examination of the above-identified application in due course, are respectfully requested.

If the Examiner believes that there are any other points which may be clarified or otherwise disposed of either by telephone discussion or by personal interview, the Examiner is invited to contact Applicants' undersigned attorney at the number indicated below.

To the extent necessary, please charge any shortage in fees due in connection with the filing of this paper, to the Antonelli, Terry, Stout & Kraus, LLP Deposit Account No. 01-2135 (Docket No. 506.44793X00), and please credit any excess fees to such deposit account.

Respectfully submitted,
